

Lund Spring Symposium 24–26 May 2023

Enabling Novel Therapeutic Principles

Welcome from the Symposium Chair

The inaugural Lund Spring Symposium, May 24-26, 2023, will present state-of-the-art research centered around molecular therapeutics ranging from basic research to clinical applications.

The ambition is to raise the profile of Pharmacology as a cross-functional discipline in the 21st Century and to provide a forum to facilitate collaborations across academia and industry.

We are extremely pleased to have many scientific beacons who will be honored at this occasion (See table). Moreover, several other high profile international and local researchers will deliver front-line research presentations. A common denominator across all presenters is their inspirational and transforming research that is providing the basis for a number of therapeutic applications.

This gathering will be an exclusive opportunity for scientists and entrepreneurs to broaden their horizons of cutting-edge science and to be an engaging and interactive forum.

On behalf of the Organizers and the Program Committee, we warmly welcome you to Lund.

Lars Grundemar
Symposium Chair

Sponsors:

Award Speakers

CRAIG CREWS
Yale University, CT, USA

BRIAN KOBILKA
Stanford University, CA, USA

ROBERT LANGER
Massachusetts Institute of
Technology, MA, USA

JUDE SAMULSKI
University of North Carolina, NC, USA

SARAH TABRIZI
University College London, UK

DREW WEISSMAN
University of Pennsylvania, PA, USA

Keynote and Invited Speakers

CHARLOTTE ALLERTON
Pfizer Inc., USA

JENNIFER PETTER
Arrakis Therapeutics, MA, USA

LARS BJÖRK
Lund University, SE

KIRILL POPOV
Red Glead Discovery, SE

TOMAS BJÖRKLUND
Lund University, SE

ROB SLACK
Galecto, ApS DK

MIKAEL DOLSTEN
Lund University, SE/ Pfizer

SARA SNOGERUP LINSE
Lund University, SE

STEPHEN W. FESIK
Vanderbilt Univ., TN, USA

KRISTIAN STRÖMGAARD
Copenhagen University, DK

THOAS FIORETOS
Lund University, SE

FREDRIK TIBERG
Camurus AB, SE

TREVOR FORSYTH
Lund University, SE

CLAES WAHLESTEDT
Lund University/ University Miami,
FL, USA

KRISTINA MASSON
Acrivon Therapeutics, SE

BJÖRN WALSE
SARomics Biostructures, SE

DARIO NERI
ETH Zurich, CH

Place: Palaestra et Odeum, Lundagård, Lund
Address: Paradisgatan 3, Lund, Sweden
Date: May 24 - 26, 2023
