

# MultiPark Innovation Days

- A moment in the pursuit of innovation in our research

## Innovation in Life Sciences Lecture Series

Book your calendar the following afternoons, 12:00-15:00

20 March **"The journey from stem cell research over patenting to clinical partnering with Big Pharma"**

**Agnete Kirkeby**, Associate Professor

Stem Cell Biology

University of Copenhagen

*Room: 11345, BMC*

3 April **"Molecular tools and business opportunities"**

**Ulf Landegren**, Professor and entrepreneur

Genetics and Pathology and SciLifeLab

Uppsala University

*Room: Segerfalk lecture hall, BMC*

10 April **"Mammalian brain cell types and lineages from single-cell transcriptomes"**

**Sten Linnarsson**, Professor and entrepreneur

Medical Biochemistry and biophysics

Karolinska Institute

*Room: Segerfalk lecture hall, BMC*

15 May **"Research and innovations in the pharmaceutical industry"**

**Karina Fog**, PhD and Director Proteinopathy and

Neuroscience

H. Lundbeck A/S

*Room: Segerfalk lecture hall, BMC*

Light lunch (free of charge) will be served from 12:00  
We hope to see many of you there!
